MAXIMIZED LEARNING, MINIMIZED RISK IN A CLEAN, SPACIOUS ENVIRONMENT

SAFE + READY TO TRAIN

At Lehigh Career & Technical Institute, we're committed to helping adults launch or advance high-skill, high-wage careers in demand across the region. We're also committed to the health and safety of our students and staff. That's why we implemented a Healthy & Safety Plan designed to maximize learning opportunities for students while minimizing their risk of exposure to COVID-19 at LCTI.

PERSONAL TOURS

We replaced our monthly Open House and CDL Seminar with personal tours. Contact education coordinator Amy Rex at 610-799-1316 or rexa@mylcti.org to schedule your tour today.

IN PERSON + HANDS ON

Our courses remain in person and hands on. All of our CDL courses feature one-to-one training and most others offer small class sizes that make social distancing a snap.

SAFETY + SANITATION

Following CDC & DOH guidelines, students and staff are required to wear face masks and practice social distancing. Facilities are cleaned daily with an emphasis on high-touch areas.

SCHOLARSHIPS OFFERED

In partnership with Lehigh County, LCTI is offering scholarships to qualified adult students who can demonstrate a financial hardship caused by the coronavirus pandemic.
